Summary

I am a front-end developer with 7+ years of experience and a focus on UX. To that end, he has honed his skills in writing succinctly, producing clean and efficient code, and building intuitive products. I get excited when talking about web apps vs. websites and believe that my value stems from the impact he can have on his client's customers. I have available to work on front-end projects with a focus on UI, JavaScript, and React.
