

Yoshimura Seika

icarus.senior.dev@gmail.com

React Developer

Highly skilled React Developer with 7 years of experience in developing and implementing front-end architectures that have resulted in significant increases in page load speed and user engagement. Proficient in collaborating with back-end teams to integrate user-facing elements with server-side logic, implementing automated testing platforms, and optimizing components for maximum performance. Adept at identifying and resolving performance and scalability issues, staying up-to-date with emerging technologies and frameworks, and reducing development time for new projects.

WORK EXPERIENCE

Frontend Developer • Full-time

Freshcredit

New York • 03/2022 – 07/2023

Developed and implemented a new front-end architecture using React.js, resulting in a 25% increase in page load speed and a 15% increase in user engagement. Collaborated with the backend team to integrate user-facing elements with server-side logic, resulting in a 20% reduction in server response time. Implemented automated testing platforms and unit tests, resulting in a 30% reduction in bug-related delays and a 20% increase in overall code quality.

Frontend Developer • Full-time

Ubie

Japan • 03/2018 – 04/2022

Designed and developed a reusable component library for future use, resulting in a 40% reduction in development time for new projects. Optimized components for maximum performance across a vast array of web-capable devices and browsers, resulting in a 30% increase in user engagement and a 10% increase in revenue. Utilized Redux for state management, resulting in a 25% reduction in code complexity and a 15% increase in team productivity.

Frontend Engineer • Full-time

Cybozu

Japan • 04/2016 – 02/2018

Identified and resolved performance and scalability issues, resulting in a 50% increase in page load speed and a 20% increase in user engagement. Developed and maintained user interfaces using React.js, resulting in a 30% reduction in development time for new projects. Stayed up-to-date with emerging technologies and frameworks, resulting in a 20% increase in team efficiency and project success rate.
