📅 21/08/1998   👁 Medium   ⭕ Github

🪪 Profile

I am a computer engineer and a full-time freelancer as a full-stack web and blockchain developer.

After I got my first project as a freelancer I realized that this is what I wanted to do.
Looking over the projects I have completed and feedbacks of my client means a lot to me and always keeps me going.
As much as I like to create long working relations with my clients, I am always eager to work with new clients.

If I don't know something that doesn't mean I can't do it.

That being said here is a summary of my experience and technical skills in web development:

⭐ Google Chrome Extension Development
⭐ React.js, Next.js, Vue.js, Nuxt.js, Redux, Vuex, React Native
⭐ JavaScript, TypeScript, Restful API
⭐ HTML5, CSS, SCSS, Bootstrap, Tailwind CSS, Styled-component
⭐ Node.js, Express.js, Nest.js, Python, Django
⭐ MongoDB, MySQL, Firebase, Airtable
⭐ Stripe, PayPal Integration
⭐ Strapi, Sanity, AWS
⭐ ChatGPT, LangChain
⭐ Blockchain, Solidity, Web3.js, Smart Contract

💼 Professional Experience

Senior Chrome Extension Developer
08/2023 – 11/2023
JobWizard ⬈
Beijing, China

- I provide the perfect results by understanding complex existing project codes that have not been maintained for a long time and quickly understanding the requirements of the client.
- I carry out maintenance while sharing good ideas with the client with the goal of improving the user experience of the project.
- I always respect the client's wishes and provide good communication and results to client with 50% communication and 50% work.
- I am gaining a lot of experience in JavaScript and chrome extension development while performing numerous functions.

Senior Front-end Next+TypeScript Developer
06/2023 – 08/2023
EarlyBird ⬈
Wuhan, China

- I completed several pages with sophisticated designs based on the mockup provided by client.
- I worked closely with backend developer to seamlessly integrate multiple APIs.
- I have always focused on improving the user experience and completely improved compatibility between user pages.

Senior Front-end Vite+TypeScript Developer
05/2023 – 06/2023
Bot.tube ⬈
Wuhan, China

- I provided the results to the client in a timely manner and he was satisfied with it.
- Client recommended and invited me to work with a new client(his friend).

Senior Full-stack PHP Developer
02/2021 – 06/2023
Stelareum ⬈
Warszawa, Poland

- I have been the main developer on this project using the PHP Zend framework for a long time.
- I gained a lot of experience by constantly checking the status of blockchain coins.
- I have successfully implemented integrations with multiple endpoints.

🎓 Education

Bachelor of Computer Science (BCompSc)
10/2011 – 04/2014
Meijo University
Nagoya, Japan

- I have majored the Information Technology.
- I have got Bachelor of Computer Science (BCompSc) Degree in Information Technology.

Nagoya University
04/2007 – 09/2011
Nagoya, Japan
